Contents

B. Skalmierski, *Mathematics improves the violin* 3–24
A. Wieczorek, *Applications of fixed point theorems to theory of games and economic theory* 25–34
Jubilee of Professor Jan Mikusiński
A. Kamiński and K. Skórnik, *Facts about the life and the research of Professor Jan Mikusiński* 35–52
W. Kierat, *On Mikusiński's algebraic theory of differential equations* 52–56
The list of books and writings by Jan Mikusiński 56–64
Other references 64
W. Marciszewski, *The place of Stanisław Leśniewski in contemporary logico-philosophical thought* 65–68
J. Konior, *Investigation of constructions of the texts of proofs in university textbooks and monographs* 69–79
A. Schinzel, *50 volumes of Acta Arithmetica* 81–83
Diploma of membership of the Papal Academy of Sciences given to Professor Czesław Olech 84
T. Prucnal, *On some diofantic equation* 85–87
The bylaws of the Polish Mathematical Society 89–98
Linguistic column
Marcin E. Kuczna, *Language of participants of the Polish Mathematical Olympiads* 99–101
Letter to the Editor (T. Rolski) 101
Problems 102
News and announcements 103–109
Book reviews
S. Balcerzyk and T. Józefiak, *Commutative rings* (in Polish), reviewed by J. Browkin 110–112
W. Rudin, *Real and complex analysis* (in Polish), reviewed by M. Skwarczyński 112–116
A. W. Archangielski and V. I. Ponomariev, *Foundamentals of general topology – problem book* (in Polish), reviewed by J. Mioduszewski 117–119
W. Krysicki, J. Bartos, W. Dyczka, K. Królikowska, M. Wasilewski, *Problem book in probability and statistics*, Part I. *Problems in probability* (in Polish), reviewed by A. Weron 120
M. Mączyński, J. Muszyński, T. Traczyk, W. Żakowski *Mathematics* (textbook, in Polish), reviewed by A. Iwanik 121–122
S. Polański, *Geometry of architectural coverings* (in Polish), reviewed by J. Kaczmarek 123–124
M. Cichy, J. Nomańczyk, S. Szpakowicz, *Problem book in introductory computer science* (in Polish), reviewed by J. Kucharczyk 124–125
A. Pacut, *Probability theory and probabilistic modelling in technology* (in Polish), reviewed by A. Weron 125–126
A. M. Gleason, R. E. Greenwood, L. M. Kelly, *The William Lowell Putnam Mathematical Competitions, Problems and Solutions: 1938–1964*, reviewed by P. Zarzycki 126–127
J. Barwise and S. Feferman (editors), *Model-Theoretic Logics*, reviewed by J. Woleński 128–130
M. J. Beeson, *Foundations of Constructive Mathematics*, reviewed by J. Woleński 130–133
R. Rheinwald, *Der Formalismus und seine Grenzen. Untersuchungen zur neueren Philosophie der Mathematik*, reviewed by J. Woleński 133–134
Book announcements 134–135
Miscellanea (excerpts from H. Weyl, L. S. Wygotski, Nicole) 80, 83, 87, 88
